Ways of Seeing John Berger 1972 "Seeing comes

before words. The child looks and recognizes before it can speak. "But there is also another sense in which seeing comes before words. It is seeing which establishes our place in the surrounding world; we explain that world with words, but word can never undo the fact that we are surrounded by it. The relation between what we see and what we know is never settled." John Berger's *Ways of Seeing* is one of the most stimulating and the most influential books on art in any language. First published in 1972, it was based on the BBC television series about which the (London) Sunday Times critic commented: "This is an eye-opener in more ways than one: by concentrating on how we look at paintings . . . he will almost certainly change the way you look at pictures." By now he has. "Berger has the ability to cut right through the mystification of the professional art critics . . . He is a liberator of images: and once we have allowed the paintings to work on us directly, we are in a much better position to make a meaningful evaluation" -Peter

Fuller, Arts Review "The influence of the series and the book . . . was enormous . . . It opened up for general attention to areas of cultural study that are now commonplace" -Geoff Dyer in *Ways of Telling*

One of the most popular art instruction authors out there with 20+ years of experience, Lee Hammond shares tried-and-true secrets for achieving a sense of distance, evoking mood, painting realistic textures, and much more—everything you need to turn any moment

in nature into a personal work of art. *How to See Color and Paint It* Arthur Stern Learn to see and mix any color with extraordinary precision! Many painters don't paint what they see, but what they expect to see, what they think they see, what they remember, or what they imagine things are supposed to look like. Since "the mind stands in the way of the eye," the purpose of this revolutionary book is to train you to paint what your eye actually sees. Arthur Stern claims that color is key to painting what you see. After working with three generations of students, he developed a program of 22 painting projects that teach the artist to observe, identify, mix, match, and paint the colors of the world with remarkable accuracy. Using a painting knife and oil paint, you learn to analyze every painting subject as a series of distinct color areas—called color spots—and place each spot on the canvas as a unique and vivid mixture. The fundamental lesson of the book is that if you put the right color spot in the right place, you create a realistic

image of form, space, surface texture, atmosphere, light, and shade. As you follow the painting projects in this book, you'll make the dramatic discovery that everything in nature is filled with luminous color. You'll learn to see glowing color in the "blackest" shadow and the "whitest" linen. You'll learn when a green can appear red; how to use paint to replicate metal, glass, wood, paper, porcelain, and other opaque, transparent, or textured surfaces. Before long, you'll be seeing a multitude of colors in a slice of bread, apples and oranges, and a mass of green leaves. You'll learn how to paint quickly enough to capture a "live" still life—a flower that moves and slowly dies as you paint it. You'll even practice with a setup outdoors to see how sunlight and skylight affect color. *How to See Color and Paint It* is a must for beginners and a valuable asset for intermediate artists who want to develop a more subtle perception of color. A final section contains beautiful paintings of many subjects that have grown out of projects and

ideas taught in this book. 130 color plates; 40 black & white illustrations

Color Victoria Finlay 2007-12-18 In this vivid and captivating journey through the colors of an artist's palette, Victoria Finlay takes us on an enthralling adventure around the world and through the ages, illuminating how the colors we choose to value have determined the history of culture itself. How did the most precious color

blue travel all the way from remote lapis mines in Afghanistan to Michelangelo's brush? What is the connection between brown paint and ancient Egyptian mummies? Why did Robin Hood wear Lincoln green? In *Color*, Finlay explores the physical materials that color our world, such as precious minerals and insect blood, as well as the social and political meanings that color has carried through time. Roman emperors used to wear togas dyed with a purple color that was made from an odorous Lebanese shellfish—which probably meant their scent preceded them. In the eighteenth century, black dye was called logwood and grew along the Spanish Main. Some of the first indigo plantations were started in America, amazingly enough, by a seventeen-year-old girl named Eliza. And the popular van Gogh painting *White Roses* at Washington's National Gallery had to be renamed after a researcher discovered that the flowers were originally done in a pink paint that had faded nearly a century ago. *Color* is full of extraordinary

people, events, and anecdotes—painted all the more dazzling by Finlay's engaging style. Embark upon a thrilling adventure with this intrepid journalist as she travels on a donkey along ancient silk trade routes; with the Phoenicians sailing the Mediterranean in search of a special purple shell that garners wealth, sustenance, and prestige; with modern Chilean farmers breeding and bleeding insects for their viscous red blood. The colors that craft our world have never looked so bright.

[Spring Cannot be Cancelled](#) Martin Gayford
2021-03-25 We have lost touch with nature, rather foolishly as we are a part of it, not outside it. This will in time be over and then what? What have we learned?... The only real things in life are food and love, in that order, just like [for] our little dog Ruby... and the source of art is love. I love life. DAVID HOCKNEY ***PRE-ORDER NOW***
Praise for David Hockney and Martin Gayford's previous book, *A History of Pictures*: 'I won't read a more interesting book all year ... utterly

fascinating' AN Wilson, Sunday Times 'A magic flight of a book... It's a measure of Hockney's vividness of perception that he can always put a cap on Gayford's knowledge ... fabulous' Clive James, Guardian Elegant and often surprising Hockney flags up a topic and Gayford gives the critical armature: it makes for a refreshing double act Michael Progers Books of the Year, Sunday Times 'An eloquent conversational testimony to the vividness of life lived through intelligent looking. You will see Caravaggio and Citizen Kane with fresh eyes' Daily Telegraph '[Hockney] asks big questions about the nature of picture-making and the relationship between painters and photography in a way that no other contemporary artist seems to do ... enormously good-humoured and entertaining ... On almost every page, there is an interesting provocation' Andrew Marr, New Statesman On turning eighty, David Hockney sought out rustic tranquillity for the first time: a place to watch the sunset and the change of the seasons; a place to keep the

madness of the world at bay. So when Covid-19 and lockdown struck, it made little difference to life at La Grande Cour, the centuries-old Normandy farmhouse where Hockney set up a studio a year before, in time to paint the arrival of spring. In fact, he relished the enforced isolation as an opportunity for even greater devotion to his art. Spring Cannot be Cancelled is an uplifting manifesto that affirms arts capacity to divert and inspire. It is based on a wealth of new conversations and correspondence between Hockney and the art critic Martin Gayford, his long-time friend and collaborator. Their exchanges are illustrated by a selection of Hockneys new, unpublished Normandy iPad drawings and paintings alongside works by van Gogh, Monet, Bruegel, and others. We see how Hockney is propelled ever forward by his infectious enthusiasms and sense of wonder. A lifelong contrarian, he has been in the public eye for sixty years, yet remains entirely unconcerned by the view of critics or even history. He is utterly

absorbed by his four acres of northern France and by the themes that have fascinated him for decades: light, colour, space, perception, water, trees. He has much to teach us, not only about how to see... but about how to live.

Jennifer Packer 2021-06 "Friendship, loss and the everyday populate Packer's canvases, full of disquieting detail." -Adrian Searle, The Guardian Through a uniquely textural style of oil painting that evokes the fluidity of watercolors, Jennifer Packer recasts classical genres in a fresh political

and contemporary light while keeping them rooted in a deeply personal context. Combining observation, improvisation and memory, Packer's intimate portraits of friends and family members and flower paintings insist on the particularity of the Black lives she depicts. The title of this volume refers to an ecclesiastical description of the insatiable human quest for divine knowledge; with this in mind, Packer's work urges viewers to understand and appreciate the unique dimensions of Black lives beyond just the physical. Richly illustrated, this volume includes texts by fellow painters Dona Nelson and Lynette Yiadom-Boakye, professors Rizvana Bradley and Christina Sharpe, and an interview between the artist and Serpentine Artistic Director Hans Ulrich Obrist. American painter Jennifer Packer (born 1984) grew up in Philadelphia and received her MFA from Yale University in 2012. She was formerly the Artist-in-Residence at the Studio Museum in Harlem (2012-13) and a Visual Arts Fellow at the Fine Arts Work Center in

Provincetown, MA (2014-16). She currently works as an assistant professor of painting at the Rhode Island School of Design. Packer is represented by Sikkema Jenkins & Co in New York City, where the artist lives.
