Responsive Guided Reading in Grades K-5 Jennifer Berne 2010-04-22 Guided reading is a staple of elementary literacy instruction, yet planning and conducting reading groups can be time consuming and challenging. This hands-on book presents an innovative approach to guided reading that is manageable even for teachers who are new to small-group, differentiated reading instruction. Numerous classroom examples illustrate how to organize groups and select suitably challenging materials, structure group sessions, provide scaffolding and cues while listening to students read, and balance small-group with whole-class instruction. Special features include scheduling aids and lists of common cues for beginning and older readers, as well as suggestions for further reading at the end of each chapter.

Guiding Readers - Layers of Meaning Wayne Tennent 2016-08-16 How can teachers foster good reading in pupils aged 7 - 11? This book explains the way to do it. * What is this book about? Reading comprehension is so much more than just reading words, and this book explains how to develop all aspects of it for pupils aged 7-11. Written by top experts in the field, it includes eleven in-depth case studies - taken from real-life classrooms - of lessons on fiction and non-fiction, poetry and picture books, advertising and film. * Why is it needed? Guided reading, widely used in English lessons, has never been satisfactorily examined for children in this age range. Once they have learned how to read, pupils need support to develop strategies to extend their comprehension: What does the text say? What does it mean? What do I feel about it? * What is special about guiding readers? We can guide readers whenever we open discussions by exploring their understanding rather than telling them. This book shows teachers how it can be done with real classroom examples. * Who is it for? All teachers of children aged 7-11, English subject leaders, literacy coordinators, student teachers, teacher-educators, librarians, tutors, reading specialists.

Which Book and Why Sue Bodman 2014-02-27 We want all children to love reading, and *Which Book and Why* demonstrates how effective guided reading for children in Foundation Stage and Key Stage 1 can help teachers make this happen. Balancing theory and practice, this book explores how schools and teachers can implement guided reading more confidently and more effectively. *Which Book and Why* draws together the teaching pedagogy underpinning guided reading. The book demonstrates how to develop word-reading skills, reading for meaning, and reading for information. Building on the success and strong foundations of *Book Bands for Guided Reading* (Baker, Bickler and Bodman, 2007), *Which Book and Why*: • supports the effective delivery of guided reading for young children in the early stages of learning to read; • helps teachers to choose the right book at the right time, based on focused assessments; • explains how guided reading fits with current theoretical understanding of how children learn; • demonstrates how guided reading works in practice; • outlines how practice may vary, depending on the choice of text, teaching objectives, and the needs of the child; • provides guidance for school subject leaders and senior managers, and for teachers' self-study. *Which Book and Why* includes in the accompanying CD-ROM a fully searchable database to support schools and teachers in choosing the most appropriate books at the right level for each group in a class. The database includes a full listing of colour-banded titles, including those from recently published series, allowing teachers to use their existing libraries more effectively while also informing decision-making about new resources. In parallel, teachers can search the database for texts that will complement the teaching progression of mainstream phonic programmes, review programmes that are available, and search for a text to consolidate teaching of particular phonemes. *Which Book and Why* offers professional development resources in each section; self-study activities for teachers – including student teachers, newly qualified teachers, and staff new to guided reading; resources for literacy subject coordinators; and resources for senior management and leadership teams to support the implementation of high-quality and effective guided reading lessons.
