The Poor Man's Guide to an Affordable, Painless Suicide

Schuler Benson 2014-07-26

Twelve stories, fraught with an unapologetic voice of firsthand

experience, that pry the lock off of the addiction, fanaticism, violence, and fear of characters whose lives are mired in the darkness of isolation and the horror and the hilarity of the mundane. This is the Deep South: the dark territory of brine, pine,

gravel, and red clay, where pavement still fears to tread. Contains interior illustrations by Ryan Murray and Patrick Traylor.

~~~~~  
"Schuler Benson writes like the spawn of Chuck Palahniuk and Barry Hannah. While approaching his subjects with empathy, humor, and a keen eye for detail, he creates a world of snake-charming preachers, meth heads, and spurned lovers. This collection will make you laugh, make you anxious, and keep you turning the pages. Read this damn book." -Kody Ford, The Idle Class Magazine

~~~~~ "A Breece D'J Pancake of the plains, Benson writes with a hell of a knack for dialect. His characters are dirty, flawed, and all-too familiar. There are no heroes here. Yet in these stories, Benson manages to lift his people to another plane; someplace where they might achieve a little

redemption." -Eric Shonkwiler, author of Above All Men

~~~~~  
"Schuler Benson has a playwright's ear for dialogue, a poet's eye for scene, and a comic's sense for when the sane is actually crazy, the crazy actually sane. The Poor Man's Guide to an Affordable, Painless Suicide announces Benson's place in the tradition of Wells Tower, Barry Hannah, and Mark Twain: here comes another great documentarian of the agonized and hilarious souls who inhabit Rural America." -Brian Ted Jones, Electric Literature

Comfort Cooking for Bariatric Post-Ops and Everyone Else! Lisa Sharon Belkin 2018-05 For the first time in her life, Lisa Sharon Belkin thought her quest for thinness was over. After a lifetime of dieting and obesity, with a highest weight of 393 pounds, she lost over 165 pounds in the first few years after bariatric surgery. But sugar and bad carbs made their way back into her life and regain started to happen. She had to find a way out, so after a regain of 35 pounds, she committed to developing recipes that would help her lose the regained weight and keep her on the right track. She lost the 35 pounds using the recipes she developed. Regain is a dirty

secret in the bariatric community that is experienced by many.

The reason for this, according to the author, is that, "We have not learned to prepare our foods properly for our situation and we continue to eat 'bad and junky' foods that just make us super hungry." This full-colour cookbook/educational tool addresses the realities of bariatric surgery and offers a solution: bariatric-friendly foods that are delicious and nutritious and that will keep post-ops on track for life. "[Surgery] is only a tool and to be successful we still have to put a great effort into it." Lisa discusses her personal journey and discoveries along the way during her research for this book, and shares her collection of over 90 delicious, healthy comfort food favourites, specifically designed for weight-loss surgery post-ops. The recipes are developed to deliver optimum flavour while keeping them low carb and reduced fat. Written from one

bariatric post-op to another, this book is a must-have for bariatric post-ops who are struggling with weight regain, for post-ops who want to stop the regain before it happens, and for anyone else who wants to cut down on carbs and sugar with no compromise to taste and texture. Get inspired and get cooking!

The Oxford Handbook of Peaceful Change in International Relations

T. V. Paul 2021 "Abstract: With the rapid rise of China and the relative decline of the United States, the topic of power transition conflicts is back in popular and scholarly attention. The discipline of International Relations offers much on why violent power transition conflicts occur, yet very few substantive treatments exist on why and how peaceful changes happen in world politics. This Handbook is the first comprehensive treatment of the subject of peaceful change in International Relations. It contains some 41 chapters, all written by scholars

from different theoretical and conceptual backgrounds examining the multi-faceted dimensions of this subject. In the first part, key conceptual and definitional clarifications are offered and in the second part, papers address the historical origins of peaceful change as an International Relations subject matter during the Inter-War, Cold War, and Post-Cold War eras. In the third part, each of the IR theoretical traditions and paradigms in particular Realism, liberalism, constructivism and critical perspectives and their distinct views on peaceful change are analyzed. In the fourth part papers tackle the key material, ideational and social sources of change. In the fifth part, the papers explore selected great and middle powers and their foreign policy contributions to peaceful change, realizing that many of these states have violent past or tend not to pursue peaceful policies consistently. In part six,

the contributors evaluate the peaceful change that occurred in the world's key regions. In the final part, the editors address prospective research agenda and trajectories on this important subject matter. Final Acts Nan Bauer Maglin 2010 Today most people die gradually, from incremental illnesses, rather than from the heart attacks or fast-moving diseases that killed earlier generations. Given this new reality, the essays in Final Acts explore how we can make

informed and caring end-of-life choices for ourselves and for those we love—and what can happen without such planning. Contributors include patients, caretakers, physicians, journalists, lawyers, social workers, educators, hospital administrators, academics, psychologists, and a poet, and among them are ethicists, religious believers, and nonbelievers. Some write moving, personal accounts of "good" or "bad" deaths; others examine the ethical, social, and political implications of slow dying. Essays consider death from natural causes, suicide, and aid-in-dying (assisted suicide). Writing in a style free of technical jargon, the contributors discuss documents that should be prepared (health proxy, do-not-resuscitate order, living will, power of attorney); decision-making (over medical interventions, life support, hospice and palliative care, aid-in-dying, treatment location,

speaking for those who can no longer express their will); and the roles played by religion, custom, family, friends, caretakers, money, the medical establishment, and the government. For those who yearn for some measure of control over death, the essayists in *Final Acts*, from very different backgrounds and with different personal and professional experiences around death and dying, offer insight and hope.

How to Get the Death You Want

John Abraham 2017-04-01 This is a comprehensive manual for anybody reaching the end of life, and for their caring friends, relatives, advocates, and caretakers. The author, an Episcopal priest, describes in detail the formidable challenges faced by those who wish to avoid months or years of painful treatment after they no longer have any hope of recovering any reasonable quality of life. Specific subjects include: the nature of physical death; legal documents to clarify one's wishes; the need for a strong advocate to have the patient's wishes honored moral questions that must be considered; means of dying painlessly once the decision is

made; and much more, including how to respond to reluctant doctors, and the value of humor in communicating with a dying patient. Abraham emphasizes that despite his position as a priest, this is not a religious book. It is intended for people of all faiths or no faith. People develop their own views on end-of-life issues, and for those who have not yet given it much thought, he offers facts and insights that are useful in forming one's moral beliefs. The decision, of course, must always be made by the patient, usually well ahead of time while he or she is able to make a sound judgment. If the patient desires continued medical treatment despite suffering and no means of recovery, that person's wishes must be honored. However, he argues strongly that those who hope to avoid the terrible suffering that comes so often at the end of life should also have their wishes honored. The book carries strong endorsements from

a number of well-known authorities on death, dying, grief, and mourning, including Rabbi Earl A. Grollman, the author of numerous best-selling books on death and grieving, and Derek Humphry, founder of the Hemlock Society and author of *Final Exit*.

Dignified Dying Boudewijn

The aim of this book is to stimulate communication between very ill or very old persons and their relatives. This peace of mind will come from the knowledge that they can take control of such an intimate process as their own death.

adults of sound mind to undertake informed planning around their end of life choices. Written in lay language, *The Peaceful Pill Handbook* covers an extensive range of need-to-know issues including useful drugs such as the barbiturates, drug administration, testing and shelf life, poisons and other substances including the lethal inorganic salts, the use of gases such as nitrogen, argon and helium, devices such as the carbon monoxide generator and the 'Korean method' and, of course, Swiss services such as Pegasos. All strategies are rated according to their Peacefulness, Reliability and, where appropriate, Accessibility.

Killing Me Softly Philip Nitschke 2005-01-01 *Killing Me Softly* is a radical and compelling examination of the current euthanasia debate. Frustrated by continuing controversy and political inaction in this area, prominent activists Philip

Nitschke and Fiona Stewart present a powerful argument in favour of our right to die as we choose. Their concerns include the way in which the medical profession has assumed 'ownership' of death, and the fact that existing laws restrict our end-of-life choices. They offer a future where a 'Peaceful Pill' could revolutionise euthanasia just as the contraceptive pill transformed birth control a generation ago. This book is recommended reading, not just for those who already believe we have the right to choose a dignified death but also for anyone still to be persuaded . . .

housekeeping, communications, traffic, and weather reports. Taking you on a trip into the world of mathematics, *Do I Count? Stories from Mathematics* describes in a clear and captivating way the people behind the numbers and the places where mathematics is made. Written by top scientist and engaging storyteller Günter M. Ziegler and translated by Thomas von Foerster, the book presents mathematics and mathematicians in a manner that you have not previously encountered. It guides you on a scenic tour through the field, pointing out which beds were useful in constructing which theorems and which notebooks list the prizes for solving particular problems. Forgoing esoteric areas, the text relates mathematics to celebrities, history, travel, politics, science and technology, weather, clever puzzles, and the future. Can bees count? Is 13 bad luck? Are there

equations for everything? What's the real practical value of the Pythagorean Theorem? Are there Sudoku puzzles with fewer than 17 entries and just one solution? Where and how do mathematicians work? Who invented proofs and why do we need them? Why is there no Nobel Prize for mathematics? What kind of life did Paul Erdős lead? Find out the answers to these and other questions in this entertaining book of stories.

You'll see that everyone counts, but no computation is needed.

Into the River Ted Dawe

2013-10-18 A gripping, gritty and award-winning coming-of-age novel for young adult readers.

When Te Arepa Santos is dragged into the river by a giant

eel, something happens that will change the course of his whole life. The boy who struggles to the bank is not the same one who plunged in, moments earlier. He has brushed against the spirit world, and there is a price to be paid; an utu (revenge) to be exacted. Years later, far from the protection of whanau (family) and ancestral land, he finds new enemies. This time, with no one to save him, there is a decision to be made: he can wait on the bank, or leap forward into the river. At the 2013 NZ Post Childrens Book Awards *Into the River* was judged the Margaret Mahy Book of the Year. It also won the Young Adult Fiction category of the awards. An engaging coming-of-age novel, it follows its main protagonist from his childhood in small-town rural New Zealand to an elite Auckland boarding school, where he must forge his own way - including battling with his cultural identity. This prequel to

Ted Dawe's award-winning novel *Thunder Road* is gritty, provocative, at times shocking, but always real and true. The awards' chief judge Bernard Beckett described a character "caught between two worlds ... the explicit content was presented as the danger of people being left adrift by society. And within that context, hard-hitting material is crucial; it is what makes the book authentic, real and important." The Deputy Chief Censor of Film and Literature ruled that the book is not offensive: 'The book deals with some stronger content. There are sexual relationships between teenagers, encounters with possible child sexual exploitation, the use of illegal drugs and other criminal activities, violent assault, and a moderate level of highly offensive language. These are well contextualised within an exciting fast moving narrative that has as its protagonist, a young

teenage Maori boy from a rural community who is finding his way through the strange uncomfortable environment of a boys' boarding school and unfamiliar social mores. The story captures the raw and real extremes of adolescence in teenage boys along with their yearnings and obsessions. The book is notable for being one of the first in the New Zealand which specifically targets teenage boys and younger men - a genre that does not have great representation. The genre character is therefore significant. The content immerses the reader in action, wit, and intrigue, as well as a level of social realism, all likely to engage teen and young adult readers and with particular appeal for older boys and young men.'

Muhammadiyah a Reform Movement Dr. H. Haedar Nashir, M.Si. 2015 Basically, Muhammadiyah is a reform movement. The movement of

Tadjid fil-Islam. The most profound essence of the Islamic movement established by Kyai Haji Ahmad Dahlan is the flame of reform/renewal. This characteristic is more prominent than other characteristics. Theology, ideology, and action model of Muhammadiyah are renewal leading to Islamic modernism or reformism. Those reform endeavors are actualized to break the stagnation of ummah by fostering a progressive Islamic teachings. In addition, Muhammadiyah has pioneered the system of modern Islamic education, health, and social services, community empowerment through Al-Ma'un movement, women's movement in the public through 'Aisyiyah, and reform works which revive the advancement of Islamic world and modernization of civil life. This reform is departed from the theme of al-ruju ila al-Qur'an wa al-Sunnah, namely a return to

the Qur'an and the Prophet's Sunnah. The endeavours of purification of Islam to pursue the authentic teachings, as well as to establish a progressive Islam. Despite it frequently assumed to be ad-hoc, the span of twentieth century Muhammadiyah reform is a breakthrough. In the advance, directly and indirectly, it has been a state of mind for the majority of Muslim in Indonesia, including the previous oppositions.

The Inevitable Katie Engelhart

2022-08-09 *Finalist for the New York Public Library's 2022 Helen Bernstein Book Award for Excellence in Journalism "A remarkably nuanced, empathetic, and well-crafted work of journalism."—Brooke Jarvis, The New Yorker More states and countries are passing right-to-die laws that allow the sick and suffering to end their lives at pre-planned moments, with the help of physicians. But The Inevitable moves beyond margins of the law to the people who are meticulously planning their final hours—far from medical offices, legislative chambers, hospital ethics committees, and polite conversation. Further still, it shines a light on the people who help them: loved ones and, sometimes, clandestine groups on the Internet that together form the "euthanasia underground." Katie Engelhart, a veteran journalist, focuses on six people representing different aspects of

the right to die debate. Two are doctors: a California physician who runs a boutique assisted death clinic and has written more lethal prescriptions than anyone else in the U.S.; an Australian named Philip Nitschke who lost his medical license for teaching people how to end their lives painlessly and peacefully at "DIY Death" workshops. The other four chapters belong to people who said they wanted to die because they were suffering unbearably—of old age, chronic illness, dementia, and mental anguish—and saw suicide as their only option. Spanning North America, Europe, and Australia, The Inevitable offers a deeply reported and fearless look at a morally tangled subject. It introduces readers to ordinary people who are fighting to find dignity and authenticity in the final hours of their lives.

Nitschke 2013-12-16 This is the revealing, personal story of the man behind the controversial pro - euthanasia movement, told in his own words. Medical doctor, humanist, author and founder/director of Exit International, Philip Nitschke's life has always been in the spotlight. The book spans Philip's early days, from his curious, activist student days in Adelaide, to working with Aboriginal land rights groups in Australia's Far North; to his successful campaign to have euthanasia legalised in Australia and his assistance in four people ending their lives before the law was overturned. It covers the controversy surrounding Philip's work, including the banning in Australia of his international bestselling book *The Peaceful Pill*, and disturbing reports that many young people overdosed on Nembutal, the drug that Exit International recommends for suicide. Ultimately, Philip

believes that the right to one's own death is as fundamental as the right to control one's own life: 'It seems we demand humans to live with indignity, pain and anguish whereas we are kinder to our pets when their suffering becomes too much.'
